Innumerable proofs are shown that these Phils have virtues which surpassals axedlence the ordinary medicines, and that they are unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, samers the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which bread and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every-day complaints of every body, but also formidable and dangerous diseases that have heffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished desce, the material and best physic that can be employed for children. Being sugar-costed, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substitutiated by ince of much exalted position and character as in facility the suspicion of untruth. Many eminent eleggymen and physicians have lent their names to cartify to the public the reliability of my remedies, while others have sent use the assurance of their conviction that my fragantions contribute immensely to the relief of my afficted, soffering followmen.
